

AUSTRIA MUST BE DESTROYED ITALY ASSERTS

Germany Must Be Deprived of Her Dominating Ideas.

This to Come About Before Peace Can Be Declared.

SHALL BE REAL, EVERLASTING

Civilization Must Safeguard Itself, Says Italian Premier.

Austro-Germans, Hold Germ Which Is To Be Eradicated.

Rome, Oct. 16.—Austria must be destroyed as a state and Germany deprived of every thought of dominating the world, before the war can end, Signor Bissolati, civil commissioner for war, socialist leader, soldier, and one of the most powerful figures in the Italian cabinet, declared in an interview today.

"I am convinced that war Secretary Lloyd George's statement to the United Press and Premier Asquith's words in the house of commons, exactly interpret the thoughts and express the firm resolve of all the allies," said the Italian cabinet member.

"The peace to which the whole world aspires after so many horrors and sacrifices, must be real and lasting, not a mere truce. Civilization must safeguard itself against attempts similar to the one against which she is now reacting with all her strength. This means that we must create in Europe such conditions as to render it impossible for Germany to resume her criminal designs. I therefore think that any state or states of the entente who would today harbor the thought of peace would be guilty of an act of treason. Rather than accept a peace contaminated by the germ of other wars, it would have been better not to embark on the present war at all.

"The deadly germ of war can only be killed by destroying Austria as a state and depriving Germany of every illusion of predominance. It is necessary to proclaim this fearlessly and openly as Premier Asquith and Lloyd George did."

FOR SYMPATHY, TOO

Prosecution Sees Double Motive of McDaniel's Campaigning.

St. Joseph, Mo., Oct. 16.—That the campaign for re-election being conducted by County Prosecutor Oscar McDaniel, at liberty under \$50,000 bond, awaiting trial for war crimes, is really a campaign for sympathy, is the belief today of the state.

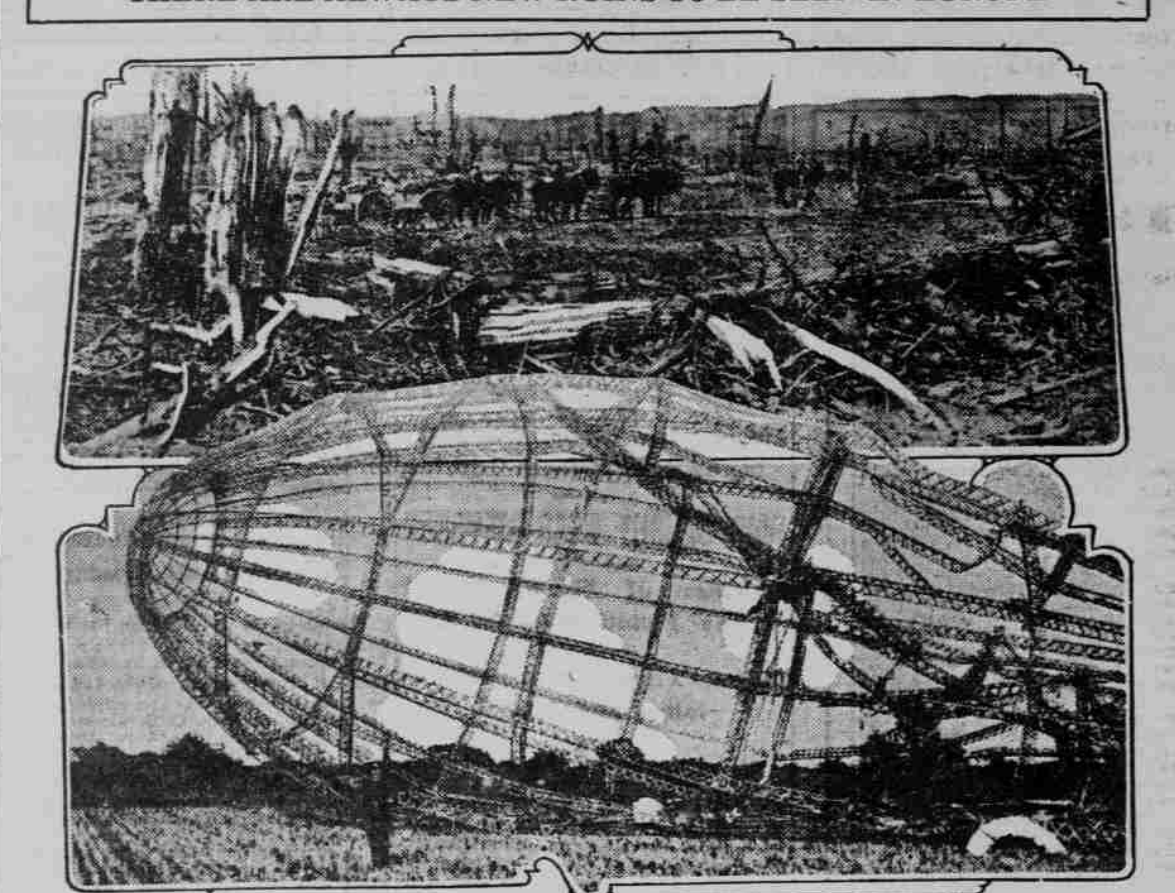

Released on bail the first of last week, the accused official planned immediately into the campaign determined to make up for the time he lost while in jail awaiting grand jury action. The state fears he plans to work up such widespread sympathy that it will be impossible to get a jury in the county that would convict him.

and not many of the guardsmen were greeted by their wives and relatives. But those who were were told that the First Kansas had been officially recorded as having had the best march discipline, the cleanest camps and the fewest stragglers of the fourteenth regiment that participated in the 208 mile hike from San Antonio to Austin and return. The march was made by the Kansas on one canteen of water a day, it was said, and the number who dropped out during the march was small.

THERE ARE ALWAYS NEW RUINS TO BE SEEN IN EUROPE

Top, ruins of Delville woods; bottom, ruins of a Zeppelin in England.

These pictures of new ruins from Europe have just been received. Upper photo shows Delville woods, in northern France, after a bombardment by the allies' heavy artillery. Lower photo shows the remains of a fallen Zeppelin which was brought down in a recent raid on England.

SUE 34 RAILROADS

War on Between State Railroad Board and L. C. C.

Attorney General of Texas Fights Federal Control.

Austin, Tex., Oct. 16.—Attorney General Looney has filed suit against thirty-four railroads operating in Texas requiring each to obey the rules and regulations prescribed by state statutes and the state railroad commission with respect to the transportation of freight in interstate commerce.

This suit was filed in retaliation of the interstate commerce commission's order from Washington some time ago in the so-called Shreveport rate case, which tended to remove the jurisdiction of the Texas railroad commission over interstate carriers operating in the state.

The suit filed today furthermore seeks to prohibit the railroads from applying higher or other rates to such freight traffic than are prescribed by the state railroad commission's tariffs now in force. If that portion of the suit is granted, it was said, a direct contravention of the interstate commerce commission's order would result.

IT'S NEWS TO FUNSTON

Hadn't Heard Pershing Intends to Re-occupy Naniquipa.

San Antonio, Tex., Oct. 14.—General Funston said this afternoon that he had no report of rumors said to have been circulated in El Paso from Mexican sources that General Pershing had ordered the re-occupation of Naniquipa with 2,000 men.

HOLDUP INSIDE OF 'PEN'

Convict Attacks Convict and Robs Him of Chewing Tobacco.

Jefferson City, Mo., Oct. 16.—A holdup within the walls of the Missouri state prison, with a plug of chewing tobacco as the prize, has become known. Consequently one convict is nursing a sore head while his attacker is confined in "solitary."

The holdup occurred in one of the cell houses. The inmates were marching in file into the cell building after the evening meal when one of the convicts in the rear of the line was attacked while rounding a corner. He dropped to the ground in a heap while his attacker carefully went thru his pockets. The holdup man then faded away into the shadows on the approach of the guard.

Investigation proved the only loss to the prisoner attacked was that of the tobacco.

BLOW GERMAN BASE?

No, But Villagers Thought So When Explosion Rocks Coast.

East Machias, Maine, Oct. 16.—The thrill which pervaded this little village when it was rocked by an explosion early Saturday, causing villagers to believe that the base of supplies for the German submarine had been discovered, gradually wore off today.

Harroll Dennison, owner of the dynamited Alewife Pen, now believes that his building, located in the middle of the East Machias river, was blown up out of spite. Villagers stilling their ears thru the stormy night, heard bombs, probably warships, passing up and down the shallow river, but these were not noticed by coast guards at the mouth.

what. The rain is over and the sky will clear tonight.

The forecast calls for fair weather tonight and Tuesday; colder Tuesday and in the east and central portions of Kansas tonight. The mercury will drop probably ten degrees lower to night than last night, said Mr. Flora. This morning the sky was cloudy with a few light showers, but it will clear early tonight and the weather observer stated there was a chance for some sunshine this afternoon.

The lowest temperature this morning was 55 degrees at 7 o'clock. This is 9 degrees above normal. The temperature tonight will be between 40 and 46 degrees. The entire week will be fair with normal temperatures according to the weekly forecast. The high reading Sunday was 62 degrees, and it was expected that today's maximum would not be above that mark.

The highest temperature on record for this date is 85 degrees, established in 1894. The low record, 36 degrees, occurred in 1890.

The wind this morning was blowing at the rate of ten miles an hour from the northwest. The moon tonight will rise at 8:24 o'clock.

MEMORY OF JETMORE

Town Unveils Portrait of Late Topekan—Pioneers on Program.

Jetmore, Kan., Oct. 16.—Jetmore has just closed a successful street fair and carnival, which drew to the town visitors from a dozen surrounding counties. Beside the usual attractions of a fair, a very interesting event was the unveiling of a painting of Col. A. B. Jetmore, late of Topeka, for whom the city of Jetmore was named. There were present at the unveiling ceremony, Mrs. A. B. Jetmore, wife of the late colonel, his two daughters, Mrs. H. C. Mulroy of Denver, and Mrs. A. Marburg of Topeka; Mrs. Marburg's daughter, Mrs. Yerkes of Chicago, and Master Marburg, the great grandson of Colonel Jetmore, making four generations of the family.

The participants in the ceremonies and program were all people connected with the early history of Jetmore. W. S. Kenyon, one of the first newspaper men and attorneys of the county, presided. Roscoe W. Wilson accepted the picture on behalf of the city after the presentation by Mrs. Jetmore from herself and family. T. S. Haun, of Kinsley, who platted the city of Jetmore, made an address on the life of Mr. Jetmore, and Miss Marburg, the first child born in the town, gave a short talk.

The portrait of Colonel Jetmore will be hung permanently in the court room and it is to be the nucleus of a collection of pictures and historical data of Jetmore and Hodgeman county.

LESSON IN STUMPING

President Instructs Supporters on How to Speak for Him.

Long Branch, Oct. 16.—President Wilson gave personal directions as to how his supporters should speak for him, during a conference today between the president and members of the Wilson volunteers, headed by the Pinchot, who will campaign for him among the labor voters of New York.

The president was early today notified by the secretary of the day of the father of Col. Edward T. Brown of Atlanta, Ga., one of his close friends and golfing companions.

AUTO EXPORTS DOUBLE

Exceed 144 Million Compared With 67 Million Year Ago.

Washington, Oct. 16.—Exports of American automobiles during the year ending June 30, reached the great total of \$144,620,719, exceeding by \$67,700,000 the previous record made in 1915. Figures made public today by the bureau of foreign and domestic commerce show that while export sales were made in seventy-six countries, they were chiefly concentrated, probably because of the war, in England, France and Russia.

APPEAL APPAM CASE

Germany Carries Prize Ship Contest to Highest U. S. Court.

Washington, Oct. 16.—German claimants appealed today to the supreme court from the decree of the Virginia federal court, awarding the cargo of the prize ship Appam to British interests. Appeals against the decision awarding the ship to a British claimant were filed today.

The ship represents \$1,250,000, and the cargo \$600,000. Both appeals probably will be heard together. The Appam was brought into Newport News, a German prize several months ago.

VOTE ON NEW COURT HOUSE.

Smith County May Issue \$80,000 Bonds or Levy Special Tax.

Smith County, Kan., Oct. 16.—At the coming election on Tuesday, November 7, the people of this county will vote on the proposition to build a new court house. And also the manner in which the funds shall be raised, provided it carries by a majority vote. There are two questions which are to be decided by the voters: "Shall the county erect a new court house?" and "Shall the funds required be raised by the issuance of bonds or by the levy of a special tax?"

The cost of the building is to be \$80,000. In case it is decided to issue bonds, the contract for the building could be let as soon as the sale of the bonds is made.

CITIES OF KANSAS

Population Figures Given Out by Board of Agriculture.

K. C. First, Wichita Second and Topeka Third in List.

139 WITH MORE THAN 1,000

Gain of Six Towns in New Class in 12 Months.

Gain of 30,000 Living in Cities Over Last Year.

There are this year 139 cities in Kansas having a population of 1,000 or more, as against 133 belonging to such a list in 1915, according to the returns received by the state board of agriculture. The cities in the list this year made a gain of 29,480 persons, which is 68.7 per cent of the increase for the state as a whole. Slightly more than 40 per cent of the population of Kansas is in the 139 cities with 1,000 or more inhabitants, the aggregate number being 484,605. Twenty-one per cent of the population of the state, or 357,559 persons, live in the fourteen cities with more than 10,000 inhabitants each. Kansas City, Wichita, Topeka, Leavenworth, Hutchinson and Pittsburg lead in population, in the order named.

Efficiency in Topeka.

Topeka is the only city in Kansas whose 1916 population was not obtained. In a statement issued recently by the board of agriculture, the census enumerators in Topeka had "botched" the job so fearfully that the county clerk objected and it was impossible to get the correct figures for the 1916 population. The population of Topeka shown in the table is for 1915.

The cities showing the greatest per cent of increase in the past year are Augusta with 189 per cent, Parsons 29 per cent, and Hays 26 per cent.

CHANGES IN RANK.

Notable changes in rank are as follows: Augusta from 101st to 40th, Eldorado 50th to 29th, Norton 92d to 65th, St. Marys 128th to 96th, Baxter Springs 192d to 85th, Atchison 174th to 101st, Oberlin 131st to 124th, Blue Rapids 103d to 82d, Neodesha 44th to 38th, Larned 6th to 43d, and Beloit 41st to 37th. It will be noted that Augusta and Eldorado, the two cities making the greatest advance in rank, and showing the largest number of increases, are in Butler county, where recent oil and gas developments have attracted many people.

Two of the cities in the 1,000-list last year (Ellinwood and Hanover) do not appear this year, while eight others made increases in the twelve months ending June 30, 1916. These are Ashland, Miltonvale, Wakeeney, Elwood, Lacynge, Protection, Conway Springs, and Kiowa.

The list below gives, in order of rank, the population of cities in Kansas having 1,000 inhabitants or more on March 1, 1916:

	1916	1915

MR. DOOLEY FORGIVES

"Little Devils Play" in His Mansion But He Won't Prosecute.

New York, Oct. 16.—"Ye see, Mr. Hennessey, the young spalpeens wasn't bad at heart. They was just full of the devil and hunger and even tho they did play hob with the fixin's, I couldn't find it in me heart to see them go to jail."

It was the character created by Finley P. Dunne, were to tell about the goings on in the Dunne mansion on the premises at 100 West 42nd street, that Mr. Dooley forgave the "little devils" who played hob with the fixin's, I couldn't find it in me heart to see them go to jail."

Eight youthful raiders camped on the premises at 100 West 42nd street, and silver ready to take away and vandalized the library, but Dunne decided he'd not prosecute them, after police had caught them in the act.

PAPER FROM WASTE

Washington, Oct. 16.—Specialists of the department of agriculture are convinced that a satisfactory quality of paper can be made from waste materials, the waste stalk fragments produced in preparing hemp fiber for the market.

At present, about 5,000 tons of huds are produced from hemp grown in Ohio, Indiana, Wisconsin and California. This is not sufficient to supply the demand for the manufacture of pulp mills or the transportation to existing mills. It is expected the tonnage will be increased.

TODAY'S MARKET REPORTS

Chicago, Oct. 16.—WHEAT—Lightness of world shipments had a bullish effect today on wheat and so, too, did a big decrease in the amount of wheat on the market. The Chicago market was strong and active, with prices on both sides of the market. The market was strong and active, with prices on both sides of the market.
